Index for Volume 26

Achalasia, endoscopic myotomy **8**
  esophagus, endoscopic dilation (a) **80**
Adenoid cystic carcinoma of the esophagus **102**
Adenoma (also see polyp)
  colon **95**
    as precursor of carcinoma (a) **65**
    invasive carcinoma **54**
  colonoscopic survey (A) **26**
  villous, of duodenum (a) **75**
Adomavicius J: see Ganju
Air-contrast radiography, aided by colonoscopy **19**
Amberg JR: Complications of colon radiography **15S**
Amebic abscess, liver, endoscopically guided aspiration **21**
Ampullary carcinoma, palliative therapy (a) **77**
Amyloidosis **154**
Angiodysplasia **134,** (A) **162**
  colon (a) **64**
  stomach **151**
Annular pancreas, diagnosis by ERCP (A), **163**
Aortoduodenal fistula, endoscopic diagnosis (A), **162**
Araki S: see Ikeda
Aspiration of amebic liver abscess **21**
Aspirin, effect on gastric biopsy (a) **72**
  injury to duodenal mucosa **5**
  injury to duodenum (E) **23**
  mucosal injury (A) **60,** (a) **68**
Avella JR: see Tedesco
Avidor I: see Delpre
Avitene, for lumostasis (a) **70**

Bains M: see Turnbull
Barium enema examination **5S, 7S, 12S, 15S, 26S, 33S**
Barium enema techniques **12S**
Barrón J: see Moretó
Berk RN: Radiographic evaluation of spastic colon disease, diverticulosis, and diverticulitis **26S**
Biopsy, endoscopically directed (a) **67**
  small intestine, in children **36**
Black BK: Whose are the touch, the hand, and the word? (R) **112**
Bleeding (see hemorrhage)
Blundell CR, Earnest DL: Caution concerning conservative management of colonic polyps containing invasive carcinoma **54**
Bolondi L: see Caletti
Book reviews: Abdominal Operations **58**
  Colon Cancer **59**
  Comprehensive Endocrinology: Gastrointestinal Hormones **160**
  Gastrointestinal Diseases: Focus on Clinical Diagnosis **113**
  Gastrointestinal Motility **161**
  Pathology of the Liver **112**
  Postgastrectomy and Postvagotomy Syndromes **160**
  Radiology of the Colon **113**
  Toxic Injury of the Liver **112**
Breslaw L: Melanosis of the duodenal mucosa **45**
Broeckaert L: see Geboes
Brush cytology (a) **63**
Brush cytology in the diagnosis of upper gastrointestinal malignancy **33**
Butt JH: see Lockard
Butler ML: see Sogge

(a) abstracts for 1980 A/S/G/E meeting
(A) abstract in Brief glimpses
(R) reflexes
(E) editorial

Calculus, in ileal conduit **156**
Caletti GC et al: Diathermy ERCP: an alternative method for endoscopic retrograde cholangiopancreatography (ERCP) in jaundiced patients **13**
Campylobacter colitis (a) **71**
Cancer, diagnosis by brush cytology **33**
  "early" gastric (A) **25**
Cannulation, of duodenal papilla (A) **66**
Carcinoma, colon **31S, 33S, 36S 38S, 95**
  colon, in polyps **54**
  "early" gastric (A) **59,** (a) **75**
  esophagus **102**
  minute, in stomach (A) **25**
  oat-cell of lung **104**
  postgastrectomy (A) **25**
Carey WD: see Theodors
Casal GL et al: Preparation of the colon for barium enema **5S**
Caution concerning conservative management of colonic polyps containing invasive carcinoma **54**
Chemical colitis, experimental **38**
Chemotherapy, in gastric carcinoma (A) **59**
Cheung EC: see Mann NS
Children, small bowel biopsy **36**
Cholangiography, complicating cholangitis (a) **66**
Cholangitis, endoscopic management (a) **77**
Choledocholithiasis, treatment by lithotripsy **16**
Cimetidine, in prevention of stress ulceration, (A), **161**
  in healing of gastric ulcers (A), **162**
Clinical features of the irritable bowel syndrome **24S**
Coagulation by laser **131**
Colitis, experimental chemical **38**
  ischemic, postoperative (A) **115**
  radiation **41**
Colon, amyloidosis **154**
  cancer screening: the Minnesota experience **31S**
  carcinoma **31S, 33S, 36S, 38S, 95**
  carcinoma in polyps **54**
  diverticular disease **26S**
  granular cell tumor **108**
  hemorrhage **134**
  irritable bowel syndrome **24S, 26S**
  myoblastoma **108**
  perforation by foreign body **20**
  pharmacology **3S**
  physiology **1S**
  polyps **95**
  preparation for examination **5S, 7S**
  stricture (a) **67**
  vascular lesions **134**
Colonoscopic polypectomy (a) **72,** (A) **115**
Colonoscopy **7S, 18S, 20S**
  after polypectomy (a) **67**
  analgesia by transcutaneous nerve stimulation (a) **80**
  associated arrhythmia (a) **72**
  associated radiation exposure (a) **73**
  combined with air-contrast radiography **19**
  compared with air-contrast radiography (a) **72,** (A) **115**
  complication of preparation **5I**
  complication by induced air pressure (A), **162**
  complication by explosion (A), **162**
  complications (A) **116, 139**
  following resection of carcinoma (a) **64**
  in experimental chemical colitis **38**
  in mass lesions of colon **95**
  in radiation colitis **41**
  use of nalbuphine (a) **79**
  use of pressure release valve **139**
  use of teaching model (R) **58**
Comments relevant to rigid proctosigmoidoscopy, flexible fiberoptic sigmoidoscopy, and colonoscopy **18S**
Common bile duct, lithotripsy **16**
  nonoperative drainage (A) **26**
Complications of colon radiography **15S**
  of fiberoptic endoscopy **8S**
Congenital duodenal diaphragm **46**
Conner WE: see Mapelli
Corrosive injury to stomach (A) **60**
Cotton PB: Endoscopic visualization of gallstones without papillotomy (R) **58**
Coughlin GP et al: Endoscopic diagnosis of amyloidosis **154**
Cowen ML, Humphries TJ: Pseudomelanosis of the duodenum: endoscopic and histologic observations on a unique case of pigmentation in the duodenum **107**
Cytology, in upper gastrointestinal cancer **33**
  as adjunct to ERCP (A), **163**

Dale JA: see Sogge
Davis JS: see Weaver
Delpre G et al: Endoscopic biopsy diagnosis of oat cell carcinoma of the lung penetrating the esophagus **104**
Delpre G et al: Metoclopramide for a watery "dissolution" of gastric phytobezoar (R) **159**
DeLuca VA Jr.: Preparation of the colon for flexible sigmoidoscopy and colonoscopy **7S**
Desmet V: see Geboes
Detection of typical lesions of hereditary hemorrhagic telangiectasia by colonoscopy **52**
Determinants of the intravenous diazepam dose required for gastroscopy **92**
Dhar GJ: see Madiedo
Diagnostic implications of the spatial distribution of colonic mass lesions (polyps and cancers): a prospective colonoscopic study **95**
Diaphragm, congenital duodenal **46**
Diarrhea **1S, 3S**
Diathermy ERCP: an alternative method for endoscopic retrograde cholangiopancreatography (ERCP) in jaundiced patients **13**
Diazepam, in endoscopic preparation **92**
  prevention of phlebitis (a) **65**
Distinguished Lecture 1980 **119**
Diverticula, colon **26S**
Dollberg L: see Jacobsohn
Duodenum, congenital diaphragm **46**
  injury by aspirin (E) **23**
  in rheumatic diseases **5**
  melanosis **44, 45**
  metastasis from hypernephroma **48**
  pseudomelanosis **107**

Earnest DL: see Blundell
Ebb and flow of gut fluids **1S**
Echography, by endoscopic scanner (a) **68**
Editorials: Aspirin erodes the duodenum, too **23**
  Dispelling the mystique of endoscopy **158**
  Editor's report **111**
  Gastroenterology flourishes in Europe **110**
  "Malignant" colon polyps: pathologist's obligation and clinician's dilemma **56**
  Matters pertaining to the journal **111**
Electrocoagulation (a) **63,** (a) **69,** (a) **73**
  of actively bleeding Mallory-Weiss tears **128**
  vascular lesions **134**
Endoscope, use of P2 (R) **24**

Endoscopic biopsy diagnosis of oat cell carcinoma of the lung penetrating the esophagus **104**
Endoscopic diagnosis and therapy of mucosal vascular abnormalities of the gastrointestinal tract occurring in elderly patients and associated with cardiac, vascular, and pulmonary disease **134**
diagnosis of amyloidosis **154**
diagnosis of gastric angiodysplasia **151**
drains, stents, in pancreaticobiliary disease (a) **81**
lithotripsy in the common bile duct **16**
myotomy in the treatment of achalasia **8**
needle aspiration for cytology (a) **75**
picture of melanosis in the duodenum **44**
small bowel biopsy in children with a modified multipurpose biopsy tube **36**
Endoscopy, complication by pneumoperitoneum **153**
complications **86**
correlated with radiography **119**
dispelling mystique (E) **158**
patient's role (R) **24**
peroral, emergency **126**
preparation **92**
use of suction-irrigation device **11**
Epstein RJ et al: Role of ERCP in the diagnosis of pancreatic malignancy presenting as steatorrhea **98**
ERCP (a) **65**
compared to echography (a) **68**
compared to nonendoscopic radiography (a) **79**
in diagnosis of jaundice (a) **79**
induced fistula **13**
in hereditary pancreatitis (a) **67**
in pancreas divisum **143**
in pancreatic carcinoma **98**
Esophagus, adenoid cystic carcinoma **102**
brush cytology **33**
dilation, in Arabian gelding (R) **159**
double-lumen (a) **73**
Mallory-Weiss syndrome **51**
meat impaction (a) **75**
penetrating lung carcinoma **104**
sebaceous glands **150**
ulcer **106**
Esophagitis, relation to hiatus hernia (A) **25**
vascular changes **29**
European gastroenterology (E) **110**

Fascioliasis, in liver **147**
Ferrante WE: see Mapelli
Fiberoptic colonoscopic study of experimental chemical colitis **38**
Filho J de SA: see Salgado
Fistula, induced, at ERCP **13**
Flexible sigmoidoscopy **7S, 18S**
training (a) **74**
use by nonendoscopists (a) **80**
Fonseca LMA: see Salgado
Foreign body, colonoscopic diagnosis **20**
jejunum, causing bleeding **152**
removal (a) **76**
Foroozan P: Pharmacology of the colon **3S**
